A NEWSPAPER DEVOTED TO LOCAL AND GENERAL NEWS AND THE INTERESTS OF CEDARVILLE AND VICINITY.

FORTY-SEVENTH YEAR NO. 38.

CEDARVILLE,

FRIDAY, SEPTEMBER 5, 1924

PRICE, \$1.50 A YEAR

PROF. TALCOTT WILL ORGANIZE CHORAL UNION

Supplementing whatever musical activities have been planned for the coming season by local organizations and without interfering with individual choirs of the various churches of the community, Prof. John A. Talcott, director of music at the college and in the schools of Cedarville, is forming a choir of mixed voices to render secular and sacred musical numbers upon such occasions as may seem most fitting.

He is extending an invitation (herewith) to all interested persons who think such an idea beneficial to themselves and to this vicinity regardless of their connection with other organizations.

It is of course to be hoped that the better and more experienced vocalists of the surrounding area will consider their services appreciated and will join such a choir but the invitation is not for such alone. Young girls and boys of high school age (whether they attend school or not) will be very welcome and the ability required of the individual vocally will not be overly stringent.

Men, mature and young will be needed in order to obtain balance in the different parts of such a choir and the number enrolled in membership will be determined to some extent by the male voices who can see fit to take one night weekly for rehearsals.

While the organization will at first do its work in Cedarville, possibly in the auditorium of the High School, one night at 7:30 o'clock early in each week, it is hoped that public appearances can be made as often as once a month. It is Mr. Talcott's idea first to render music such as is generally used in religious services and if agreeable to all the local churches one of the union services each month shall be taken charge of by this proposed organization.

The President of Cedarville College, in favor of this plan; the Superintendent of Schools also, and that Dr. White, the pastor, has been referred to the local ministers for their consideration.

It is to be understood that every one is welcome who sings be they from Cedarville or elsewhere but the one thing that will need to be insisted upon for membership is that rehearsals be attended regularly and with a view to making the choir efficient and to be able to do good work. Practice and willingness of co-operation will no doubt bring about, in due time, the desired end.

Monday night September 15th will be the first rehearsal and next week's issue of this paper will announce the place.

No membership fee is to be charged and the organization is to be run on a basis of mutual helpfulness toward all concerned. It may be found desirable to ask members to purchase their own music but such charges will amount to very little. Mr. Talcott, who plans the above, is not to receive a fee for his services in directing such a choir but he does desire those who sing to respond by helping the venture with their enrollment as members.

The above is especially an invitation to those belonging in any way to the chorus who gave a Cantata here last Christmas time and also to members of Cedarville College.

Wild Bull Again

Louis Firpo, Wild Bull of the Pampas, who last year knocked Champ Dempsey sprawling before Jack finally got him, is back again from South America and ready for Harry Wills, at N. Y., Sept. 11. If he beats the giant negro, Firpo may get another shot at Dempsey.

SITUATION IS GOING TO BE RATHER CRITICAL

Published reports that the Klan has not control of the Republican central committee is causing some itching in some quarters. We questioned a Klansman the first of the week and find that trouble is brewing. Such reports are not to the liking of Klan members we find.

This Klansman while reluctant to talk much gave assurance that the faction of the party that would have the public believe the committee is anti-Klan may be given a demonstration of what can and will be done if certain things on program are not carried out to the wishes of the Klan.

What we would like to see is a published statement on the authority of the Gowdy-Marshall leaders just who of the central committee are not Klansmen. We want to compare it with a list of the members given us who are said to be members.

"Senator" Marshall as the Kleagle of the County Committee is in the saddle. Just at present he is wrestling with the Xenia post office situation, a rather balky problem as to how to keep a promise with the Klan and yet please the anti-Klan element.

FISHERMEN MEET WITH AUTO ACCIDENT

N. P. Ewbank, W. H. Barber, and James Caldwell received a good shaking up Tuesday night when their automobile hit a culvert on the Clinton pike just north of the John Burns home. Another automobile was going north and being blinded by the light Mr. Ewbank lost the road and hit the culvert. The machine was dropped into the ditch and all the occupants more or less cut or scratched. Mr. Ewbank was driving and escaped with little injury while Mr. Barber received a cut on the head that required five stitches to close. Mr. Caldwell had a bad cut on one ear and about his face. The automobile was badly wrecked. Dr. M. I. Marsh attended the injured. The party was returning from a fishing trip.

TIME FOR ENTRIES EXPIRES FRIDAY NIGHT

All candidates for Probate Judge must file their papers by midnight tonight to get their names on the judicial ballot. Cedarville will have a candidate in S. C. Wright, present deputy in the Probate Court. Another candidate will be M. A. Broadstone, who had no opposition at the primary. Dawson Smith, police judge in Xenia, Democrat, will also be a candidate. Oliver Watson, Bellbrook, Democrat, has filed we understand. Reports are in circulation that the Klan will have a candidate before the time for filing expires.

CORNERSTONE OF NEW SCHOOL BUILDING LAID

The cornerstone of the new Spring Valley Township High School building was laid Wednesday afternoon. The Masons of the Grand Lodge of Ohio had charge of the ceremonies, that were attended by many Masons from over the county besides the patrons and school children. The building will contain a first grade high school and grade school and will be used by the pupils of New Burlington and Spring Valley.

DRY WEATHER HARD ON GRAVEL ROADS

The recent dry spell resulted in a great damage being done the gravel roads, particularly those on main market roads. The Clinton and Springfield pike and a famous gravel road in Champaign county have been rough and very dusty. Farm houses along these roads have the appearance of having been whitewashed. The damage from dusty roads cannot be estimated.

SAVE SOME OF YOUR OLD CORN

The U. S. Department of Agriculture is calling attention to the fact that farmers should lay away some old 1923 corn. Just what the 1924 crop will be no one knows as an early frost will do untold injury. The season has not been right for well grown matured corn.

MELONS COMING SOON

John Marshall informs us that he has pulled a few melons but that no great amount will be on market before the 10th of the month. The recent shower will do much to improve the crop. Last year a killing frost about the middle of the month cut the crop short.

In conjunction with 1708 other newspapers in all parts of the United States, this newspaper is now conducting a presidential poll, so that supporters of each candidate may know how their respective candidates are running.

SCHOOLS WILL OPEN FOR WORK MONDAY

On Monday, Sept. 8, the Cedarville public schools will open for registration of pupils.

Pupils will present themselves at the building at 8:30 prepared to register and obtain their assignments of work to be prepared for Tuesday. This registration will be completed in the forenoon so that all pupils may be at home by noon time.

The afternoon will be used by the teachers in completing the arrangements of schedules so that classes may run regularly on Tuesday.

Prof. Oxley will be at the Manual Training room on Saturday morning from 9 to 12 to distribute books to grade children. Please be prepared to pay cash for all books as there are no accounts to open.

WOOD CHOSEN TO HEAD DEMOCRATS

Edward Wood, Xenia barber, was chosen head of the Democratic Executive Committee when it organized last Saturday. Mrs. Cinda Ayer, Xenia, was made Secretary and Charles R. Bales, Xenia, treasurer. In political circles it had been forecast that the Rev. A. J. Furstenberger, secretary of the Klan, and member of the committee would be made chairman. Instead he nominated Mr. Wood. The committee again went on record and endorsed the national and state platforms and all the candidates under a resolution offered by Henry L. Farrell. The latter is said to be the only anti-Klan member of the committee.

LONDON HAS CASE SIMILAR TO TEXAS

A woman has been nominated for governor in Texas on the Democratic ticket seeking exoneration for her husband who had been put out of office and could never again hold office in that state.

The present probate judge in Madison county was denied his second term at the recent primary by defeat for renomination. This week his wife announces that she will file her nomination and try for the honor at the regular election in November. There will be two other candidates.

LEGION POST GETS SHARE OF WAR FUND

The Wallace C. Anderson Post of the American Legion has received a check from William Cooper Proctor for \$109.46, as its share of the war fund raised for the soldiers but never expended. A suit was brought to close the account that the treasurer could make a disbursement. The division was made on the basis of membership among the various posts.

FIVE THE LIMIT

The hunting season opens on the 15th. No hunter can take more than five squirrels and none can be sold or bought. Every hunter must have a license and cannot hunt without the permission of the land owner. The season closes October 20th.

NATIONAL DEFENSE DAY FRIDAY, SEPTEMBER 12

Friday, September 12, has been set aside as "Defense Day" Gov. Donahay has ordered a mobilization call to all organized regiments. It is asked that every one display the American flag on that day.

NEW ORDINANCE TO CONTROL STREET HAWKERS

The regular monthly meeting of council was held Monday evening with Vice Mayor McFarland in the presiding chair due to the absence of Mayor Funnelt.

Bills amounting to more than \$700 were ordered paid, most of this amount being for street oil.

Messrs. Dillver Belden, secretary of the Greene County Automobile Club, and Robert Kelly, who represents a concern manufacturing beacon lights for traffic posts, were present to interest council in a flash light beacon for Main and Xenia avenue. The automobile club erects the beacon light other than the base which is put in by council. Such traffic signs have been installed in Dayton and Cincinnati.

Mr. Belden agreed to erect a few danger signs about town as a warning to motorists. The automobile club expects to campaign for new members. The corporation would not be to any expense in maintaining the flash lights as this is done by the club. The matter was left open for further consideration.

The question of a new ordinance to regulate all amusements circuses, carnivals, sideshows and the like was under discussion for some time. Cedarville has been found to be a fertile field for all the cheap shows of the country. What to do with the street hawkers is another problem. Many of these sell goods of an inferior value in competition with local merchants. Some of these hawkers are veterans of one or the other wars and cannot be licensed under special enactment. Council may adopt the method adopted in Springfield and compel them to locate on a side street out of the business section of town.

THE HUNTING SEASON

Farmers will want to post their farms against hunting as in former years. We will start a posting column next week for the fall season. Get up a club in your neighborhood at 25 cents each and post a whole section. You can also get "No Hunting" signs at this office.

POLL SHOWS COOLIDGE IN THE LEAD

The poll taken by the Hearst newspapers in twelve cities over the country shows Coolidge leading but it may be disappointing to the Democrats. The result on the fifth day shows Coolidge 12,555; LaFollette, 11,671; Davis, 3,715. The poll shows that LaFollette is drawing about equally from the Republicans and Democrats. The former 523, the latter 506 in the city of New York; Coolidge leads in Baltimore, Chicago, Rochester, Seattle, Boston, Los Angeles, LaFollette in New York City, San Francisco, Milwaukee, Ft. Worth. Davis does not lead in a single one of the twelve cities.

PIE WAGONS

An unscrupulous pie wagon is laid up somewhere in a West side garage for repairs. It was rumormongered that it was an encounter with a taxi cab, and later looted. Small boys fulfilled their opportunities and stomachs with primitive promptness, says the Chicago Tribune. The jammed pie wagon, its golden bulk caved in, its pies gone save for a cranberry one or so, was left like wreck and romance on a southern reef. These blonde galleons sailing out with pies deserve a better place in Chicago's romance and adventure. There is red joy in them, particularly in cherry season, and their wanderings over the city always skirt on piracy and freebooting. The heart of darkness lies just back of every curb. Wild life embodied in small boys lurks to take advantage of every wreck. A broken wheel means disaster and looting. A collision breaks out treasure dear to savage souls. Fifty these pie wagons, or at least consider the risk that they run blindly. No treasure ships along the Spanish main ever sailed a more unfriendly coast. Within these wagons are canons of pies quite undefended. A lemon cream is Andromeda before the dragon. It appeals to desire. But pie wagons must trust to luck and careful drivers. They arouse old passions in the male breast. He becomes implicitly a pirate and a savage. When a taxi runs a pie wagon, law on the high seas of Chicago is gone.

When Lady Astor, the member for Plymouth, appeared in the house of commons carrying her hat in her hand—she put it on when, after bowing to the chair, she found her place—the original feminine M. P. made parliamentary history. When the present parallel movement met for the first time there was commotion among the male members when six of the eight women in the house appeared. There are circumstances under which a hat is necessary. Certain questions may be addressed to Mr. Speaker only when a member is sitting down and "covered." How could it be done by a woman member who had left her hat upstairs in the ladies' room? That was the serious question which confronted the sharps on privilege and procedure. So now it is all settled through feminine ingenuity and resourcefulness, says the New York Telegram. And it is pocket mirror for the proper adjustment of the headgear at the end of a speech is demonstrated to be part of the necessary equipment of every lady in the mother of parliaments.

Those who observe Bacon's dictum that "reading maketh a full man," are in fact too few. It is not because leisure does not exist for the practice, but rather because there are many demands upon leisure. The motorcar, modern forms of entertainment, love of recreation and the outdoors, all have drawn heavily on the time of the modern youth—and his parents. That much of the activity these things involve is wholesome and of particular value to the body is beyond question. But there is a question as to the value of present-day use of leisure in cultivation of the mind.

Mah-jongg acquires unexpected significance from the report that a vessel recently arrived at Seattle with one hundred tons of equipment for the game in its hold. This is only one instance of heavy shipments from China, and ship owners of the American coast go into return cargoes as raw material from which mah-jongg pieces are to be made. An important trade seems to have developed which can continue while ship bones and cranial bones of the American ox and the American public, respectively, retain their present hardness and juster.

With the announcement a few days ago that a plan had been completed by which electric current generated at Niagara falls was to be received in Boston, Mass., it is evident that another step has been taken toward a wider distribution of the power from this great source of potential energy. It is less than 200 years since the force of the falls was directly utilized for the purpose of setting wheels into motion. What changes come with the years!

Disillusioned When He Found a Faded Model

By MILDRED GOODRIDGE

(Copyright, 1924, Western Newspaper Union.)

"MARY looks old and worn," said John Strickland to his brother Ephraim.

"Should think she would," retorted Eph. "Say, John, this has been an imposition—our family landing down on you this way."

"Well, you're welcome, aren't you?" demanded John.

"Your wife has surely made it so—dear woman! She's a prize, a jewel, but to harbor and work out her life for her husband's folks—no more of that! We're going home tomorrow."

And that afternoon something cross-grained hit John—hard. He had just been noticing the tired but smiling face of his wife, when an automobile drove up, it contained a chauffeur and two others. The others were Mr. and Mrs. Allison.

They were old residents of the town, but had left five years previous to live in the city. Now they were coming back to the old home town.

John stared. He had not seen Mrs. Allison for over five years. She had been his first flame.

"Why, she looks as young—yes, younger than when I last saw her!" he was forced to ejaculate.

Certainly, at a distance, Mrs. Allison was a vivid contrast to Mary Strickland.

"I might have had her once, if I'd set out strong enough to win her," mused John. "He was not tired of sweet, loyal Mary; he would not 'trade' with Cy Allison if a basket full of diamonds was thrown into the bargain! Still, John was in just that mood where the dull ends of home life looked more somber than usual. On the other hand, the sight of the bejeweled, brilliant-looking woman who had once held his affections quite dazzled him. John wandered down the street aimlessly, dreaming.

"Oh, say, Mr. Strickland!" sang out a sudden voice.

"Why, it's Nat, isn't it?" inquired John, always kindly and cordial in his greetings, and especially so with children.

"It was a child, a little fellow of about ten, a cripple, wheeling himself across the walk towards John in his invalid chair, who accented him.

"See here," said little Nat. "I found this just now."

He extended a silver-netted purse, and John stared at it and awaited an explanation.

"Where did you get it, Nat?" he inquired.

"In the road. It was right after an auto went by."

"Whose?"

"The Allison's."

"Oh, indeed," murmured John, and took the silver purse, placed it in his pocket and started down the street.

John reached the rather imposing home of the Allison's. He started and stared through an open window, a decidedly waspish voice had called out sharply:

"Cy!"

It was Mrs. Allison calling to her husband. She was plainly visible to John in the room beyond the window. John Strickland stepped back quickly. He could not help but note Mrs. Allison standing before a mirror. She was startled, almost shocked. She removed the upper set of teeth that had so reminded John of pearls. Then she removed some of her hair. The amazed John thought of "scarce-crows." He was embarrassed; he was amazed. Cy came into the room.

"What d'ye want?" he inquired crossly.

"That money I let you have. You didn't use only a small part of it."

"I'd like to carry a little once in a while," growled Cy.

"Oh, yes, to distribute among those worthless relatives of yours!" sneered the model Myra. "I'll give them their walking papers if any of that cheap rabble show their faces about here. All you've got to do is what I've brought you. My money, do you understand?"

And over the change of that ten-dollar bill.

Cy Allison groaned and complied. Down the steps and homeward bound bolted John Strickland—disillusioned.

"What I've escaped!" he exclaimed. "And I fancy Mary added! Oh, I've been a wicked man! And see how that dear woman has treated my relatives!"

"John," spoke Mary, as he entered the house, "your brother and his family are thinking of leaving us."

"Yes, Eph spoke of it today," answered John.

"Don't let them. His wife is resting splendidly and another week will just put her on her feet."

"Oh, you dear, loving, unselfish woman!" cried John, and actually picked up Mary in his arms and kissed her a dozen times.

And Mary blushed till her comely face looked just as girlish as of yore, and with a smile of rare content John went out of the house, whistling a happy tune.

"I'd be ashamed to tell her of my comparing her with that woman," mused John softly to himself. "Why, Mary is a pretty picture compared to that made-up scoundrel. I'm going to love her more than ever, and I'll never think she looks old and faded again!"

The Atlantic coast line of the United States is 2,750 miles long. The Pacific coast line is 5,550 miles long.

Quaker Memento

Rachel Cooney, Twelfth century French poet, when dying, ordered his heart sent to the Lady of Paele, whom he justly loved her to eat it. She vowed she would never eat again and starved to death.

Odd Fishhooks

Hooks of pearl shell are used in trolling for abalone, bonito and sea pike in the waters of the North seas.

KANSAS SHERIFF LANDS OHIO BOY AS MURDERER

We are in receipt of a copy of the Great Bend, Kan., Tribune, which gives an account of the murder of Harold Watson, 19, of Denver, by Harry Willis, 19, of Circleville, O. Both had been working on a threshing crew.

The boys drew their money and went to Hoistington. They rode the "blinds" to Olmitz, and being stranded laid down near the track to sleep. Willis set up the claim that Watson robbed him. They fought and Willis knocked Watson. In a fit of frenzy Willis picked up Watson and threw him in front of a fast passenger train. The boy died in a few minutes.

Sheriff W. C. Stanley, formerly of this place, placed Willis under arrest and in the grilling found the boy had served two terms in the Ohio reformatory at Lancaster, O. The Tribune says that never before has such a crime been run down by the officers as this murder of Watson. The work of Sheriff Stanley was commented upon at great length.

Mr. Stanley formerly resided here and located some years ago in the west where he has become quite wealthy, owning several hundred acres of land and very popular in politics.

DEATH OF MRS. TAYLOR

Mrs. Julia Galloway Taylor, aged 86, died last Friday at the home of Mr. and Mrs. W. H. Barber, where she has made her home for the past fifteen or more years. The deceased was the daughter of Andrew Galloway and Mary Collins and is survived by one brother, Harrison Galloway of Stroud, Okla. She was a member of the First U. P. church in Xenia.

The funeral was held Monday at 10 A. M. from the home of her nephew, Mr. Barber, burial taking place at Xenia. The services were in charge of Dr. McChesney.

FOOTBALL PRACTICE BEGINS THURSDAY

Thursday is the day for the football warriors to begin practice at Cedarville College. Although school does not begin until next week on Wednesday, the new coach, Mr. Dietrich, has been on hand for several days getting things lined up. The paraphernalia will be handed out to the early arrivals and light practice begun Thursday afternoon.

The coach has a fine record and several of the old men on the squad who have talked to him say he knows more football than any coach the College has ever had.

Most of last year's men will be out in uniform by the first of the week. We may lose our star fullback, "Larrie" Currie. None of the old men can kick as well. Larrie is a power in the back field defence and plunging through the line. We will certainly miss Larrie. We all hope and some of us believe Larrie will be with us when school begins.

Our quarterback, Pete, will also be missing this year, but we have C. Husher, who did relief work last year, and two new men to fight it out for the quarterback position. Johnnie Davis is also leaving us for C. S. U. We will miss Johnnie. Although last year was his first year, Johnnie made a fine showing.

Paul Edwards, one of the old warriors of two years ago will be back fighting for a position on the squad. We have a couple of stars coming from Rhode Island and a quarterback and possibly an end from Xenia. Things look big for Athletics at Cedarville this year.

We have a tough schedule this year, playing such teams as Earlham, Wilmington, Capital and De fiance. There is only one home game scheduled so far, and one open date. Efforts are being made to get another home game for the open date. Antioch's not having football this year leaves us without the one big home game. The only home game is with Earlham October 4. Keep this date in mind. Earlham is a much larger school than Cedarville, but the boys believe they can make a win. The boys are out to win in every game this season.

A campaign to raise \$500 for Athletics will begin Monday, Sept. the 15th. Part of this is to pay the coaches' salary not provided for by the College. The remainder is to be spent for much needed equipment and repairs in the gym. Those in charge of the campaign are M. L. Frazier, Doc Richards, Harold Ray, and Dick Cooper.

All these men are very much interested in Cedarville Athletics and I know there are many more just as interested. We will see who they are in this campaign.

Watch Doc Richards' window beginning Sept. 15. This is a good chance to "make" Athletics at the College. Do your part so we may be proud of old Cedarville.

Doughnuts and a Cap'n Clow

By MILDRED GOODRIDGE

"Doughnuts," Ned Tamm said the all deliciously, as he slipped and peered through the trees toward a neat little farmhouse on the edge of the town.

And then as the pretty maid set a great earthen bowl in the window piled high with the creamy, golden doughnuts, Ned caught a full view of her winsome face.

The picture before him was so sweet, so so lovely that he would have liked to become a wild part of it.

Ned had been away for a month with a "movie" crew that had gone to pieces for lack of capital.

Ned had been away for a month with a "movie" crew that had gone to pieces for lack of capital.

And then as the pretty maid set a great earthen bowl in the window piled high with the creamy, golden doughnuts, Ned caught a full view of her winsome face.

MORE WAYS WITH FRUIT

There are so many delicious drinks which one may make in the home, just from a few spoonsful of canned fruit juice left-overs, often thrown out, not knowing their value. With a half-peppermint of Raspberry Whip—dash one cupful of raspberries, add a cupful of pulverized sugar, a pinch of salt and the white of an egg beat all together until stiff. Serve on a platter surrounded with whipped cream.

Grape juice, with a little ginger ale added to it to give it zest, makes a most delightful drink.

Raspberry Whip—dash one cupful of raspberries, add a cupful of pulverized sugar, a pinch of salt and the white of an egg beat all together until stiff. Serve on a platter surrounded with whipped cream.

Strawberry and Pineapple Jam—Put a pineapple through the meat grinder. Take equal parts of pineapple and strawberries. To every five cupfuls of fruit add four cupfuls of sugar. Let stand several hours. Put in a preserving kettle and cook gently until clear and thick. Pour into jelly glasses and cover with paraffin.

Ripe Currant Pie—Bake a pastry shell and fill with the following: Take one cupful each of crushed currants and sugar, two eggs, two tablespoonsful of water and one of flour, and one tablespoonful of butter. Beat the yolks of the eggs, add flour and water and mix with the fruit and sugar; dot with bits of butter, and cook until smooth. Pour into the shell and top with a meringue prepared from the egg whites, using two tablespoonfuls of sugar. Brown in the oven and serve cold.

Salpicon of Fruit.—Shred a pineapple, add a banana or two cut fine, and orange and grapefruit sliced; mix with one cupful of sugar and a tablespoonful of water which have been cooked to a sirup and cooled; add a tablespoonful of lemon juice and chill, adding the fruit. Serve in tall glasses garnished with maraschino cherries.

KYLE - REILLY NUPTIALS

The marriage of Miss Clara Christina Kyle, daughter of the Rev. and Mrs. E. J. Kyle, northeast of Cedarville, and the Rev. Gavin Sinclair Reilly, pastor of the Presbyterian church at Camden, O., was solemnized by the Rev. J. G. C. Webster of the Clifton Presbyterian church, at the Kyle home, Wednesday evening at 7:30 o'clock.

The ceremony was witnessed by thirty guests. Previous to the ceremony Mrs. E. H. Cavanaugh of Pleasantville, O., sang "I Love You Truly" and Mr. Frank White of Camden, sang "O, Promise Me." Miss Harriet Kyle, sister of the bride presided at the piano.

The ministers took their places before the altar in the living room. The bridegroom entered with the best man, Mr. Roger Collins of this place. The maid of honor, Miss Grace Kyle, of Marianna, Ark., came next followed by the bride and her brother, Mr. James Kyle, who gave her in marriage.

The bride wore a gown fashioned of white satin-back crepe, a long simple lines. A tulle veil was caught with orange blossoms and fell to the hem of her gown. Her bouquet was of brides' roses.

Miss Kyle wore orchid crepe and carried Colombia roses.

The double ring ceremony was used.

Following the ceremony a light refreshment course was served. The bride and groom left for Dayton that evening and the following day went to Camden, where a furnished home awaited them.

Both bride and groom are graduates of Cedarville College and popular young people. They have a host of friends that wish them unbounded success and happiness in their new life.

Over one-third of all the tobacco chewers in the United States have proved that.

The demand for BEECH-NUT Chewing Tobacco alone is more than 250 million packages in a single year.

That's because we didn't let tobacco growers, labor, manufacturing costs, State, Federal and revenue-taxes collect their increases from the quality or the weight.

COLLEGE NOTES

The 31st year of Cedarville College begins next Wednesday at 9:30 o'clock.

Senator J. F. Burke, of Elyria, O., will make the opening address. There will be vocal music.

Registration days are Friday, Sept. 5, Saturday, Sept. 6, Monday, Sept. 8, and Tuesday, Sept. 9. All students must register on the above dates at the college office from 9 A. M. till 4:30 P. M. each day.

Text books will be on sale on registration days at the college. The tuition and fees for textbooks are due on the day that the student registers and are to be paid on that day. The tuition in the College is \$30 for the Semester. A student should bring from \$7 to \$12 to pay for books. If a student takes a science course, the laboratory fees are as follows: General Chemistry, \$6; Zoology, \$6; Physics, \$6; Organic Chemistry, \$10. The student in any of these courses should also come prepared to make a breakage deposit of \$5. After breakage, if there is any, has been deducted, the remainder is returned at the end of the semester. Tuition for music: Pipe organ, \$25; Piano, \$18; Voice, \$18. Stringed instruments, \$18.

Come prepared to pay all fees on the day you register.

Prof. Diederich came Monday and has been at work ever since he came. The first practice in football was Thursday. The outlook for this sport has never been better.

Dr. Jurkat returned Tuesday, from his vacation. Dean Robinson came from Michigan, Friday, where he has been summering.

Prof. Koehler and Tinker are expected the first of the week. The former has spent the summer in Columbus, the latter in post-graduate work in Grove City College.

Rev. Harriman returned from his vacation in Detroit, Monday.

The largest enrollment in the history of Cedarville College is fully expected.

The authorities of the college have been getting the campus and the buildings in shape for the year's work.

All are cordially invited to the opening exercises, Wednesday morning, at 9:30. Come and hear Senator Burke.

KEEPING WELL

PAINTING FOR HEALTH

DR. FREDERICK N. GREEN

PAINT is a life-saver.

Not the kind that goes on the face, but the kind that goes on the wall.

At first thought there would seem to be no connection between paint and health, yet recent investigations have shown that fresh paint is a valuable antiseptic.

Mr. Henry A. Gardner of the Institute of Industrial Research at Washington painted a wall surface and then sprayed it with a liquid culture of disease germs. A similar wall space, unpainted, was also sprayed with the same germ culture. On the unpainted area an abundant growth of disease germs developed, while on the freshly painted area the germs died.

The explanation is simple. An unpainted, rough wall is porous and moisture is absorbed by the wall and retained for a long period. Most disease germs can only grow on moist substances. If the wall is painted, the pores are filled up with paint and a rough, absorptive, damp surface is changed into a smooth, non-absorptive, dry surface.

A painted wall can be easily cleaned, while an unpainted wall cannot be washed successfully.

This scientific demonstration has been borne out by practical experience.

In the early days of our knowledge of disease germs, fumigation was generally used. If it didn't do anything else, it at least made a bad smell, very much like the incense and strong odors that primitive man used to scare away disease. But the New York health department is now using paint rather than fumigation for sterilizing rooms which patients with contagious diseases have occupied.

In a maternity hospital in St. Louis there were over a hundred cases of puerperal fever with a high death rate. Doctor Starkford, the health commissioner, ordered the hospital cleaned and the entire place repainted, including the floors, ceilings and inside walls.

After the painting puerperal fever almost entirely disappeared in that institution.

This sounds reasonable when we consider that paints are made up of white lead, turpentine and other antiseptic substances.

Spring is a good time for cleaning. A fresh coat of paint in a house or hospital makes it not only better-looking, but a clean and healthful place in which to live.

Paint not only preserves a structure and improves its appearance, but it also increases its healthfulness.

Good health is largely a matter of applied common sense.

If we live in clean surroundings, keep our bodies clean and strong and have clean air, clean food and clean water, we will be in little danger from disease.

Sunday School Lesson

Lesson for September 7

JESUS HEALS A NOBLEMAN'S SON

LESSON TEXT—John 4:46-54. GOLDEN TEXT—John 4:46. PRIMARY TOPIC—Jesus Heals a Nobleman's Son. INTERMEDIATE AND SENIOR TOPIC—Belief—What It Has Done and Will Do. YOUNG PEOPLE AND ADULT TOPIC—What Should We Expect From Faith?

The glorious revival among the Samaritans being over, Jesus, with heart yearning for His countrymen, goes back into Galilee. When He began His work there it was not appreciated as it should have been. His own testimony is that a prophet hath no honor in his own country. Having made a reputation elsewhere He now came back to them.

I. The Nobleman's Faith (vv. 46-47). This father's heart was in deep anguish because of the critical illness of his son, but he had the good sense to go to Jesus in his distress. Parents should eagerly bring their children to the Great Physician. This affliction was used to bring glory to Jesus. Many do not think of Jesus until overwhelmed with grief and distress. It is need that always brings men to Jesus. Even when human physicians fail the case is not hopeless; for there is no case too hard for Christ and there is no disease too difficult nor sorrow too great but relief can be found in Him. This is true of our physical ills, but it is pre-eminently true of our souls. We see here that a rich and influential man in distress, showing that the rich and exalted are no more exempt from afflictions and anxiety than are the poor. Cares and trouble come to all alike. The young are liable to disease and death as are the old. This nobleman learned of Jesus through the testimony of another (v. 47). Had not some one told him about Jesus he would not have called upon Him. Before lost men can call upon the Lord some one must tell them about Him (Rom. 10:14, 15).

II. The Testing of the Nobleman's Faith (vv. 48, 49). In his experience we find an illustration of the development of belief. He had faith, but not an intelligent faith. Before help could be given his attitude of mind must be changed. Jesus declared, "Except ye see signs and wonders, ye will not believe," showing that the nobleman's faith was such as was based upon signs and wonders. The man needed something more than the healing of his son. He must needs know Christ as Savior as well as Healer. He did not allow himself to be put off, but insistently demanded, "Sir, come down ere my child die." This shows that he was now willing to make any experiment to save his boy. His very impotency forced him to lay hold upon the Lord. Jesus desired this man to possess a faith which was based upon His naked word, not mere signs and wonders. The way of Jesus is to first reveal Himself as a Savior and then as a Healer.

III. The Nobleman's Faith Victorious (vv. 50-54). Through his testing he passed with good advantage. He is now ready to receive the Lord's own word, "Go thy way; thy son liveth." These words created true faith and the man stepped out upon them. Because he believed the words that Jesus spoke unto him he went his way. Faith increases in brightness the longer it is exercised. The foundation upon which he reposed his faith was the words of Jesus. On his return his faith met with confirmation. His servant met him and told him that his son was alive. Upon inquiry he found that the recovery of his son was from the very hour in which Jesus spake the words. This was such an unmistakable evidence of the deity of Jesus that not only the nobleman, but his household, was won for Christ. This affords us an example of the beauty of household religion. May we all learn that the words of Jesus are reliable. That which He promises is just as sure as though it had already come to pass. The nation of the one who believes in Jesus is just as sure as though he had been in heaven and seen his name in the Book of Life. Anxiety for the son brought salvation to the whole house.

Evangelism

"Evangelism is not merely a work of love. It is the sheer law of self-preservation. The heathenism which is creeping along the faces of society is scattering its seeds on both sides. If Christians do not make the world better, the world will surely make the church worse."—Herald of Holiness.

Innocent Revenge

He that has learned with meekness and gentleness to forgive injuries and pass them by, has found the best and surest way for healing and defeating them; nay, it is a kind of innocent revenge.—Matthew Henry.

Only Two Choices

Said an old man to the young apprentice: "Aboard a man of war, my lad, there's only two choices. One's duty; t'other's mutiny."—Rev. A. S. Woodburne.

Prognostication Changed

The early spelling of the word (now spelled colonel)—colonel—followed the Spanish and only French, according to the "r" sound. The present pronunciation, "colonel," became established about 1800, before which time the second "c" was given a value.

This Shipyard

"I may be down but I'm not out," thought the runner as he sately slid into third.—Agnes Aquila.

U.S. Royal Cords

BALLOON ~ BALLOON-TYPE ~ HIGH PRESSURE

Built of Latex-treated Cords

TIRE building took a big step forward when the makers of United States Tires invented the Latex Process.

The added strength and wearing quality given by Latex-treated cords is something that the user of Royal Cords can tell you about from his own experience.

Royal Cords are the standard of value in cord tire equipment—even more certainly today than ever before.

And this holds good whether you are considering a High-Pressure Tire, a Balloon-Type Tire to fit your present wheels and rims, or a Balloon Tire for a 20 or 21 inch wheel.

Breezes You Past the Repair Shops

COLUMBUS Gasoline is a poor friend of the repair shops. But it is a good friend to your car and to your purse. It is motor kindly. Its smooth power saves the cost of new parts and repairs that always result from jumpy, jerky performance. Its pure, unblended goodness prevents dilution of your lubricating oil. Its snappy start puts a lighter load on your battery. And its unusually big mileages per gallon mean the maximum of motoring economy. Fill with Columbus and pass up the repair shops.
